PROJECT BACKGROUND	
<i>This page to be completed by the Project management team on behalf of the teams</i>	
Project Title:	IMPLEMENTING CARDINAL CUPBOARD
Project Aim:	Create the best possible website for Cardinal Cupboard
Project Background:	Cardinal Cupboard, a non-profit at the University of Louisville, needs a new website developed. The requirements for the website were made in CIS 320, in the fall of 2021. It is our job in CIS 420 to create the website using the specified requirements that were chosen in CIS 320.
Project Benefits:	This Project will result in the following outcomes: <ul style="list-style-type: none"> • An increase in donations to Cardinal Cupboard • Increased awareness of Cardinal Cupboard • More food to students in need
Project Objectives:	The overarching project objectives are: <ul style="list-style-type: none"> • 50% of development done before 3/21/2022 • 75% of development done before 4/05/2022 • 100% of development done before 4/25/2022 • Implement all specified requirements into the website
SCOPE OF THE PROJECT IN YOUR HEALTH SERVICE	
<i>Insert organisation name here</i>	
<i>The following section of the project planning document is specific to each team.</i>	
Organisational Context	The project is important for Cardinal Cupboard as it will improve their internal processes through a new and improved website. Improving their system will bring in more donations, supplies, and clients.
This project will include:	This project will not include:
<ul style="list-style-type: none"> • The financial department • The IT department • The RSO department 	<ul style="list-style-type: none"> • The Parking and Transportation Department
Project Deliverables:	We will deliver an updated website for Cardinal Cupboard to use,

What you will deliver at the end of the project. ▲	which should cover all internal processes and systems of the organization.
Success Criteria: How will you measure the success of the project?	<i>The success of this project will be measured by the level of satisfaction by the client, as well as the improved operations of the website. If the client is happy with the overall development of the site, consists of all the components the client is looking for, and is also easy for users to operate with opportunities for updates with no troubles, the project would be labelled as a success.</i>
Resources: What are the resources required to undertake the project?	<i>The resources required to undertake the project consist of the following:</i> <ul style="list-style-type: none"> - <i>Principles of Information Security</i> textbook - <i>Internet/PCs</i> - <i>Specs selected by client from CIS 320 groups</i>
Linkages: Are there opportunities for this project to gain leverage from or provide support to other safety and quality project already underway in your organisation?	<i>Some opportunities that this project provides to gain leverage includes:</i> <ul style="list-style-type: none"> - <i>Aiding in raising awareness for the Cardinal Cupboard</i> - <i>Allowing for easy access to Cardinal Cupboard links and information</i> - <i>Educating students, faculty, and local citizens about the organization</i> - <i>Allowing other non-profit organizations to do further research, which allow for potential sponsors/partnerships</i>
